

Make four to six photocopies of this page (the tapered booster section is tricky and may require practice).

J) Upper core shroud. Make one from paper.

K) Lower core shroud. Make one from paper.

A) Nose cone: Turn from balsa block or carve down from balsa nose cone or adapter.

N) Launch lug standoff. Make one from 1/16" or 3/32" balsa.

R) Booster base disk. Make four from 1/16" or 3/32" balsa.

O) Booster nose cone. Roll four from paper.

S) Fin pattern. Make four from 1/16" or 3/32" balsa.

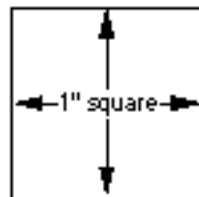

Glue this edge.

Glue tabs for joining to nose (O)

Glue tabs for joining to tapered section

Q) Booster cylinder. Make four from paper.

P) Booster tapered section. Make four from paper.
