D)	1	Main Body Tube (type BT-60)	30396
E)	1	Shock Cord Mount (type SCM-50)	84444
F)	1	Shock Cord (type SC-2)	85736
G)	1	Nose Cone Base Piece (type NCA-60AH) ..	71011
H)	1	Plastic Nose Cone (type PNC-60AH)	71012
I)	1	Screw Eye (type SE-2A)	38252
J)	1	Die-Cut Balsa Fin Sheet (type BF-M2)	32238
K)	2	Launch Lugs (type LL-2AM)	38176
L)	1	Parachute (type PK-18A)	85566
M)	1	108" Shroud Line Cord (type SLT-108)...	38239
N)	6	Tape Discs (type TD-3F)	38406
O)	1	Decal (type KD-M2)	37202

You will need a few tools and supplies, so collect them before you start. Here's the list:

- A. White Glue: Estes Rocket Glue, Elmer's, or similar.
- B. Plastic Model Cement. Use cement made for plastic models.
- C. Scissors: Almost anything that will cut paper is fine.
- D. Knife: A sharp model knife or single edge razor blade.
- E. Pencil: A pencil's best; ball point ink can show through the paint.
- F. Ruler
- G. Sandpaper: Fine and extra-fine for a smooth finish on your fins.
- H. Sanding sealer
- I. Paint
